DESCRIBE THE PRESENT AND ORIGINAL (If known) PHYSICAL APPEARANCE

The massive pyramidal chimney base under this small cottage is believed to be the remains of an early 18th century dwelling, probably one of the first at Contee Farm". The date of the present frame structure is not known. The chimney is between two equal sized rooms and the steps to the loft wind around it. Each room has an entrance on the north side and the south side. The porch extending the length of the south side has an enclosed section containing kitchen and bathroom. Two long dormers have been added to the south side of the roof.

The cottage stands near the water and the site of <sup>Q</sup>marine railway used in the early 1800's. The old Talchester Steamboat wharf, known as "Contee's Wharf" is just to the south at the end of the road. A shipwright is known to have lived in the cottage in the late 19th century. It was used as a summer cottage after 1900.
